

Position: UI/ UX Designer

Location: Noida

Million Sparks Foundation is a tech-led education initiative focused on Teacher Capacity Building and aims to empower one million teachers by 2020. We believe that the role of education is to ignite a fire in every child and teachers are the sparks who do that. ChalkLit - MSF's mobile and web application platform provides bite-sized curriculum-linked resources to help teachers build their knowledge, and also plan and execute high-quality lessons.

We are a young organisation with an entrepreneurial culture. Our team requires a diverse group of passionate, self-driven, caring individuals who would like to contribute to this mission.

[Google](#) and [Central Square Foundation](#) are supporting MSF through grants for its work.

Position Summary

We are looking for a UI/UX Designer with good knowledge of designing interfaces for mobile and web Applications. Somebody who is passionate about resolving user pain points through great design will be an absolute asset.

The candidate has to work very closely with Product team, Technology and other respective teams towards the goal of uniform UI/UX of product across different platforms: Android, iOS and Web.

Key Responsibilities

Key responsibilities include, but are not limited to:

- **Primary Skills:** Translate concepts into user flows, wireframes, mockups and prototypes that lead to intuitive user experiences.
- **Secondary Skills:** Graphic designing and execution of all the customer-facing design on social media, blogs, on the website and in advertising.
- Deliver designs optimized for a wide range of devices and interfaces.
- Identify design problems and devise elegant solutions.
- Make strategic design and user-experience decisions related to core, and new, functions and features.

Required Qualifications, Skills & Qualities

- One or more years of UX design experience.
- **Expertise in standard UX software such as Sketch, OmniGraffle, Axure, InVision, UXPin, Balsamiq, Framer, and the like is a must.** Familiarity with design software and technologies (such as InDesign, Illustrator, Dreamweaver, Photoshop) is also required.
- Basic HTML5, CSS3, and JavaScript skills are a plus.
- Ability to work with clients to understand detailed requirements and design complete user experiences that meet client needs and vision.
- Extensive experience in using UX design best practices to design solutions, and a deep understanding of mobile-first and responsive design.
- A solid grasp of user-centered design (UCD), planning and conducting user research, user testing, A/B testing, rapid prototyping, heuristic analysis, usability and accessibility concerns.
- Ability to iterate designs and solutions efficiently and intelligently.
- Ability to clearly and effectively communicate design processes, ideas, and solutions to teams and clients.
- Ability to work effectively and synthesize abstract ideas into concrete design implications.
- Be excited about collaborating and communicating closely with teams and other stakeholders via a distributed model, to regularly deliver design solutions for approval.
- Be open to receiving feedback and constructive criticism.
- Be passionate about all things UX and other areas of design and innovation. Research and showcase knowledge in the industry's latest trends and technologies.

How To Apply

Brewing coffee is what excites us. If you know how to do it, we would love to meet you at our office in Noida. Even if coffee's not your-cup-of-tea, we would love to have you if you believe in our mission and want to contribute. Do drop in a few lines or buzz us telling more about yourself or something you want to know about us. Our coordinates are given below:
